MOTION *Re*: FLOOD SITUATION IN THE STATE

Debate—*Contd.*

Sri M. RAJASEKHARA MURTHY —Sir, before the interval I was making reference with regard to the permanent rehabilitation of the flood affected people. There are two schemes already before the State Government which are being implemented under two different circumstances. One relates to the permanent rehabilitation of the villages which have been submerged on account of construction of reservoirs and tanks, the other relates to shifting of villages in Manya District under the Anti-malaria Scheme. According to these schemes the cost for the construction of roads, drainages, school buildings and other village amenities is being borne by the Government itself. The existing building of the village under shifting will have to be valued and 60 per cent of the valuation should be paid in cash and the remaining 40 per cent will have to be adjusted towards the materials of the old buildings which will be permitted to be taken and transported to the new village. An Assistant Engineer will be appointed to carryout the lay out roads etc., and an Assistant Commissioner will be appointed to acquire land. I want that the privileges and rights enjoyed by these people should also be extended to the people who are affected by floods. I want the State Government to be very sympathetic and liberal regarding extending the concessions to these affected people.
